**HIMALAYAN DOG CHEW**

100% NATURAL . AUTHENTIC . NO PRESERVATIVES.

# HIMALAYAN DOG CHEW

Himalayan Dog Chews were born from an ancient recipe for a hard cheese snack chewed by the people of the Himalayas. In the mountains surrounding Mt. Everest at more than 15,000 feet, it is made using traditional methods with yak and/or cow milk, and all natural products with no preservatives or binding agents. They're also gluten-free! Depending on the size and eating habits of the dog, this can be a very long-lasting dog chew. Dogs must work the end of the treat for hours, softening it with their mouths before small parts of it can be slowly chewed off. When you give this treat to your dog, you know that you are providing them with hours of high-quality eating entertainment.

## Key Features

- + Does not stain or stink
- + Completely digestible
- + A highly nutritious treat
- + Lasts 5 to 7 times longer than Bully Sticks
- + Lactose-free, gluten-free, & grain-free

### How to microwave:

When a small piece is left over after they have enjoyed the treat, place the dry piece in the center of the microwave. On High Power, microwave for about 45 seconds. If the piece does not Puff, microwave for another 30 seconds. Cool the Puff down for at least 2 minutes before feeding.

### INGREDIENTS

Yak and Cow Milk, Salt, and Lime Juice

\*While your dog is stimulated and works at eating the cheesy goodness of our Himalayan Dog Chews, they are reducing the calorie intake at the same time.

# YAKY NUGGET

Yaky Nuggets are little bite sized Himalayan Dog Chews that can be popped/puffed in a microwave and given to dogs to enjoy the cheesy flavor. These can also be boiled for ten to fifteen minutes in water to make them soft and easy to chop into smaller bits that can be served with regular dog food. They are also cut to size for uniformity and are carefully tested for quality before being packaged.

## INGREDIENTS

Yak and Cow Milk, Salt, and Lime Juice

## GUARANTEED ANALYSIS

Crude Protein Min 52.8%

## Key Features

- + Does not stain or stink
- + Completely digestible
- + A highly nutritious treat
- + Made with 100% natural ingredients
- + Lactose-free, gluten-free, & grain-free

### How to microwave:

Place one piece of Yaky Nugget in the center of the microwave (placement varies depending on microwave). On High Power, microwave for 40 seconds (for most household microwaves). If the entire Nugget does not Puff, microwave for another 15 seconds. Cool the puffed Nugget down for at least 2 minutes before feeding.

### FOR ALL DOG SIZES

21 - 24 pieces:

4 ounces

total calories: 17 - 20 per treat

# YAKY PUFF

From the beginning, we have tried numerous ways to utilize leftover Himalayan Dog Chews. After extensive research and hundreds of attempts later, we discovered that when Yaky Nuggets are microwaved, they puff up to about five times their original size. The result is a dog treat that is not too soft and not too hard, while maintaining the same cheesy flavor dogs love!

## Key Features

# YAKY STICK

Yaky Stick is the combination of two of dogs' favorite treats; Himalayan Dog Chews wrapped around a Bully Stick, which is made using patented processes without using any binding agents or glue in the USA. Bully Sticks come from all free-range grass fed cattle and provide dogs with essential proteins while Himalayan Dog Chews provide them with essential minerals. Moreover, this combination allows the Bully Stick to have little or no saliva from the dogs, hence emitting very low or no odor. While some dogs go for the cheese of Himalayan Dog Chews and some go for the Bully Sticks, we guarantee that any dog will go for Yaky Sticks, enjoying them fairly longer than a regular Bully Stick.

## INGREDIENTS

Yak and Cow Milk, Beef, Salt, and Lime Juice

## GUARANTEED ANALYSIS

Crude Protein Min 78.7%

Crude Fat Min 5.7%

Crude Fiber Max 1.0%
